DETAILED ACTION DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. This application is in condition for allowance except for the presence of claims 14-18 to Group II non-elected without traverse in paper 6 . Accordingly, claims 14-18 have been cancelled.

Change claim status of claim 7 as follows:

Change "original" to read "currently amended".

Response to Arguments

3. Applicant's arguments, see page 9 and 10, filed 9/02/2003, with respect to claims 1-13 have been fully considered and are persuasive. The rejection of 1-13 has been withdrawn.

Allowable Subject Matter

4. Claims 1-13 are allowed.

Art Unit: 1765

5. The following is an examiner's statement of reasons for allowance:

In regard to claims 1-13, the closest prior art of Wolf et al. does not disclose intentionally adding carbon to Si precursor for Czochralski pulling so that the density of carbon is greater than 5 parts per million atoms. Wolf et al. discloses carbon as a unwanted impurity and thus intentionally adding carbon to such Si precursor, as now specifically enumerated in the amended claims, would not have been obvious in the prior art. Other close art, specifically, Candelaria (US 5,360,986), discloses the same carbon content but not the claimed method of doping the Si. Ion implantation of carbon does not suggest the intentional addition of carbon to a Si precursor melt. The examiner further acknowledges the applicant's assertion that no new matter was added (page 8 of the amendment of 9/02/2003).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
